Reductive was higher this week than it has been lifter a long time. These three run down.

Order to the first three trees are bot all at work.

servative opinion has for forty years been overborne in nearly all the southern states. The dominant party will brook no opposition that scushern puople who support the democratic party are disposed to join in intolerant and x-treme measures; the trouble is that the violent and extreme man are always at the front, and s the tyranny which the Richmond paper refers

and public action in the southern states have always been controlled by a loud and aggre-sive Yaw. Such is the case still. Men do not freely discuss and freely act upon public quisproducts, and resist or defy the tyramy of aggressive and lossest or tyramy Others who dare to set up against this tyranny are panished with estracism in social and busi ness life, and every form of pressure that an

the dominant party. In the northern states we have nothing at all like this, and it is difficult for the northern mind to conceive the possibility of it. That here are protests against it in the south is a hopeful sign. In tim: these protests will es-tablish the same freedom of political opinion and political action in the south as that to outet with certainty on the "solid vote" of any large body of our states.

organized bady of intolerant public opinion

The Pall Mall Gazette says that a return companies have any \$2,000,000, while water actually and bonestly not, and the problem base disbursed a suit farger such.

And this bugs aggregate of four million sost—

have disbursed a suit farger such the problem presented by worked out before the penditure of the appositions promoted by must amount to even a much larger sum. country exence be as appalling as this, but it will probably never be known how large it a, it is devered in the accounts of shop stock. legal expenses and construction account beyond

At the diamer of Buston mercaants, the other ning Senator Hour said: "There is less sectional and less political bitterness in this confitry at this moment than has ever being known before since the administration of James Mon-roed. This is certainly true of the morths, a states, and while there is much latent hilterness states, and wome there is much latent billerness in the sight, which shows itself whenever the imperions spirit, beth of claver, is shitagonized, the senator is sight in saying that this is not a time for the bilter and angry condits of policial parties or of sections.

THE BOARD OF TRADE, ND RIFER

Wednesday, Jan. 16, 1884

Several work kinds the Beauth of Trads as pointed from the Boundard a long letter from Senator Share, in reply to an address by the Wool-Growers. Convention held at The Dates had October, making a "distinction from Forthald is the Control of Trade of the Control of Control

at each interests may be." He then proceeded to shy that the logiclof the domaind is respectively the extess that the wood-growers may put mode, in his peaker, and adds "Vority the mode points of this country are not confined to their allinead corporations."

Guing into his subject at length, Mr. Safer told his pelitioners that "it has been demonstrated over and over again from the statisties of wood prices in this country, covering a verified of many years, turing which time wood has been subjected to varying dutue, sorterime practically prohibiting, at other times and leap prayed of times practically prohibiting, at other times because the proposed and the lower gades entirely free, with a moderate duty upon the higher and finer grades from the statisties of wood prices in this country, covering a verified of many years, fairn the report princed absorber to the lower gades entirely free, with a moderate duty upon the higher and finer grades.

Againg "In the face of facts, figures and figures and forms the probabilities of the contract o

to be that the long run it would injure ration than long run it would injure ration than longift the wool-growing interests the money to carry of the temporal management and many times reflected in The Dissections. There is no possible need of a life n-militation of the heard merely shows that our bearing up the tariff on account to do for the solutions are many times reflected in The Dissection of the heard merely shows that our last, inor more than a ten-militation of the beard merely of the fined to supply the second of the superiors of the temporal of the problem of the possible need of a life n-militation of the beard merely of the fined to supply the second of the superiors of the temporal or supply to the temporal or supply to the superior of the superior of the superior or the superior of the superior or the ratter than benefit the wool-growing interests the money to carry on the temperary work of the leabling of the lact.

wheth Imotr respectfully decline to do for the reason that in the long run it would injury ratios than the long run it would injury ratios than beeds: the wood-growing interests of the country, by restricting the extinction, and prevenus the diversifying of home manufactures, therefore insufing in the consumption of raw, material which must result in a keeping down if not in inturted represeng the prices of doctors it would."

There are the salient points of the letter. We have presented them in this form to facilitate reference to the dominant itself. The positions taken in the letter are clearly stated and well appeared to do the dominant itself. The positions taken in the letter are clearly stated and well appeared to do the work for a spatial state of the consent will be read not only by the wood-grower error (the state both yall shows who lakes on instruction itself, the position is taken in the letter are clearly stated and will appear to do the work for a spatial state of the preparation should be offered to engage to do the work for a spatial state of the preparation and only that the doubt that the doubt that the doubt that the doubt that the consent is able to read the consent will be read not only by the wood-grower error (the state both yall shows who lakes of the contrainty in the average of the south, and the read that the contrainty in the contrainty in the contrainty and the contrainty in the position of the contrainty in the cont

presents to deny, while the analysis profess of the engaged in the business is more than the same than within technory the presents to deny, while the analysis profess of these engaged in the business is more than forty millions of dollars; yet, mail people? This is the contributed nothing to the bysis of the results are in the formula at the dollars; the first same is not for the contributed nothing to the bysis of the latter in the presence upon the expanses of the latter. The law passed by the last general adsembly, to against the eville regulting from their bindness. is the first, seesing to tapose restraint upon the figure truffle, ever passed in that state that has been successfully out into practical as en-tion. Under its provisions most than 4500 seloons and places where the triffic has been carried on have gone out of existence, and if

the law is permitted to stand, he says the number retiring from the business will be materially increased.

A revenue of nearly \$1,909,000 has been received from the operation of the law and paid into the various county, oftenian and paid into the various county. into the various county, city and village transmiss of the state. Under the local option" feature of the law a number of village.

NEW TO-DAY. large have, by ordinance, prohibited the traffic lages have, by ordinance, problithed the traffic within their corporate limits, but because of polating an earling at the school of 2000 at one first and Main. the phraseology relating to tippling-bodies, the sale of spirituous Equors cannot be probibited, if not sold in timpling-houses. Governor

so that, when by village ordinance the traffic is prohibited, the people of the townstep may decrease and the city by Goods. For Carriage Painters, House worself the traffic in the city by Goods.

sentiment in target of personal serious taterforence with its provision, is attempted.

But notwithstanding this encouraging statement, there is a powerful and persistent element, there is a powerful and persistent element in Ohio which is disternanced to force the problition movement still further into politics, and it is useless for political leaders to ignore the existence, and probably unpossible for them to prevent its being an immeasurable source of disturbance. Recent dispatches from Claveland outline are plan adopted by the Woman's Christian Femperance Union to several source of the Claveland outline are plan adopted by the Woman's Christian Femperance Union to several source of the Claveland outline are plan adopted by the Woman's Christian Femperance Union to several source of the Claveland outline are plan adopted by the Woman's Christian Femperance Union to several source of the Claveland outline are plan adopted to several source, and the control of the Woman's Christian Pemperance Upton to secure political action in favor of a profibitory amendment in Ohio, and also are smeadment to the feed also are smeadment to be asked to favor in their mational platforms. and when that time somes no party can longer count with certainty on the "solid vote" of adv will be taken; if only one does that one will be supported; if notifier does in a total one will be supported; if notifier does is storid back of the supported; if notifier does is storid back of the supported; if notifier does is storid back of the supported; if notifier does is storid back of the supported; in the does is supported; if notifier does is does is supported; if notifier does is does in the does is does in the does i 1872 to 1882 more than two million sterling, or Howa and elsewhere. There is, no doubt much Iowa and elsewhere. There is, no doubt much strongth in the movement now, and it may relate movement now, and it may may be more in markets and the strongth of the strongth o \$10,000,000, were spont in England by railway strongth in the movement new and it may companies in promoting bribery and lobby in gather much more before the end of the year.

> pers say that Squatter John Sherman' wants his brother, General W. T. Sherman, naminated for the presidency, and is soing to back him seriously for the hopor. General Sterman, before he went away from Washington, said most em-phatically that us dill not intend to allow himcell to be used by any set of politicings, and that he would not adeept a nonunation of it were deferred him by the quarimous way of the goal which is a large transfer him by the quarimous way of the goal which is a large transfer him by the quarimous way of the goal which is a large transfer him by the quarimous way of the goal which is a large transfer him by the quarimous large transfer him by the have changed. Sense of Shorman would may be to come, so other.

While the Northern Profile well nuder con-struction the people of Portland indulged foul hopes that an improvement in one amusement privileges would be among the blussings of its completion. It was argued that the Northern Pacific would form part of a big circuit to be followed by the lights of the stage, and that Hirst et.
